HUMANISTIC. SUSTAINABLE. ENTREPRENEURIAL.

The Leuphana Transformation Lab is a research institution at Leuphana University of Lüneburg (Leuphana) for focused, collaborative and independent research on transformation. It hosts an interdisciplinary network including five Key Subject Areas (climate futures in digital cultures, democratic resilience, organizing in times of crisis, towards a regenerative society, and companies as drivers of sustainability transformations) and the psychology of transformation.

Leuphana Transformation Lab offers
